I do not think the Scheme falls under the Go in which expenditure exceeds Rs 5000 should be sanctioned by the Industrial Dept. as such should be properly dealt with by the I.S. Dept.

2 Further the scheme is in my opinion faulty. Not industrial subjects do not go together. I endorse

NOTE—Contn. sheet.

Her music classes for women can be started as proposed. There are no schools at present where classes are held in private houses or public buildings - & though opened to industrial classes for girls they placed in charge of female teachers. -

The best plan is for us to ask the Govt Depty for formulation & scheme for an industrial girls school at Bangalore & such library classes - shd be attached - & such shd be staffed entirely by Women teachers.

With the Number of books such as Kannada & Canarese.

I have also asked for Cookery. Tailoring with a sewing machine & not as women made. ~~Especially with sewing machine~~ that she has the laughter is cutting out and making by our ladies tailor this sewing machine is not indispensable.

10 Besides according to the

well established primary
& industrial curriculum for
girls should consist of
1. Cutting out & dress making
2. hand knitting (not machine knitting)
3. Embroidery (silk).
4 Canvas Embroidery
5. Lace making
6 Crochet

II I daresay that useful purpose
is also gained by training
Voice & Harmonium in these
Off classes. All girls should
Sculpture Each music.
Dance is also an industrial
subject. Teach drawing
& Painting if you like
In short the scheme is
defective in many respects &
before anything is done the
Govt should be consulted
for the scheme will have
a serious effect.

the First Member if required and the defects if approved may be discussed with him before the D. P. E. is consulted. There would be very strong prejudice against sending girls to any regular industrial classes even if they should be combined with literary instruction and it is for this reason that I recommended caution to the scheme so that we may have some idea as to the demand for instruction of this character. I have some personal knowledge of the instruction given in Convent schools and similar institutions but the conditions are very different

OFFICE OF INSPECTOR-GENERAL OF EDUCATION IN MYSORE

No. 17495/637

Bangalore, 24th January 1918.

From

28 JAN 1918

5138

C.R. REDDY, ESQ., M.A.,

Offg. *Inspector-General of Education in Mysore.*

To

P.G. D'SOUZA, Esq., B.A., B.L.,

Secretary to the Govt. of H. H. the Maharaja of Mysore,

Education and Agriculture *Department.*

SIR,

With reference to your letter No.7683/Edn.19-15 dated 29th June 1916 and subsequent reminders thereto, calling for my opinion on the proposals of the Education Committee in the matter of equipping certain Industrial Classes for women in Bangalore and for raising the minimum of Rs.200 prescribed in Government Order No.3545-8/Edn.25-15-27 dated 26th January 16 for a single institution to Rs.700, I have the honour to inform Government that in the light of experience of the working of the Home Industries Classes of which the proposed Industrial Classes for women will be only a modification, the system of running these classes on the Grant-in-aid basis has been found to be very unsatisfactory and that such a system of Grant-in-aid for these classes may be discontinued. I beg to submit that the following reasons have contributed to the difficulty of running these classes on the Grant-in-aid basis and have militated against the success of the Scheme:-

(1) The Grant-in-aid in any particular case covers the cost only from a half to one-third of the actual expenditure incurred in running these classes and it is only under the management of Associations or of individual private people who are philanthropically disposed that there is any chance of the balance being met and the classes being given a fair trial.

W D—0718—GPB—3,000—8-8-18

Such co-operation of philanthropically disposed persons or bodies coming forward to undertake such work, is extremely difficult to secure.

(2) In my opinion philanthropic effort alone, unless the sentiment is exceedingly strong, is not likely to make an educational venture of this kind a success. Because a philanthropist must be prepared to lose money if the educative side is to receive due emphasis. Inexperienced pupils have to be entrusted with the work and the education has to be prolonged for a sufficient length of time for these inexperienced pupils to receive due instruction in all its details. Both these factors are incompatible with a commercial motto as the goods produced being products of inexperienced and untrained labour ~~could~~ can not sell well. Experience shows that in institutions conducted on the grant-in-aid basis the proprietors or managers very naturally have an eye to business and profits. They do not employ untrained people readily and they have a tendency to keep the workers who have already received training for longer periods than is strictly necessary from an educational stand point. The cumulative effect of all these is that the grant-in-aid institution imperceptibly changes character from an educational organization to a factory. I therefore feel strongly that a grant-in-aid basis is unstable and unsatisfactory and is, human nature being what it is, not likely to promote the object for which the grant is given.

(3) Some of the industries for which training is given through these classes suffer at present from dearth of materials on account of the difficulties in securing them due to war, while others involve an organization of the market for the sale of the products, which cannot at present be effected by any but Government agency.

(4) I beg to submit that the only way of running these classes successfully and of imparting sound instruction along the lines proposed is for the department to take these classes over directly under its management and avoid all difficulties naturally inherent

in

19

18

in the attempt to run these classes on the grant-in-aid basis - - through the agency of private individuals.

I have the honour to be,

Sir,

Your most obedient servant,

C. R. Reddy

Offg. Inspector General.

TNR/24-1
